5. Firewall Details

The image consists of two terminal screenshots from a Kali Linux machine. The top screenshot shows two DNS lookups for 'aloki.space' using 'nslookup'. The first lookup shows standard mail exchanger records from Google. The second lookup shows nameserver records from 'ns55.domaincontrol.com'. Below this, the 'wafw00f' tool is run against 'aloki.space', displaying a diagram of a web application and identifying it as 'WAFw00f: v0.2.2 - The Web Application Firewall Fingerprinting Toolkit'.
